SUMMARY

I am a self-driven Computer Engineering student specializing in full-stack development, AI/ML applications, and embedded systems. My expertise includes technologies such as React, Node.js, Firebase, TensorFlow.js, and Arduino. I excel at delivering responsive, scalable solutions and continually enhance my problem-solving abilities through structured learning and coding challenges

EDUCATION

Thakur College Of Engineering and Technology (University Of Mumbai) <i>Bachelor of Engineering in Computer Engineering</i>	Mumbai, India <i>Aug. 2023 – Jun. 2027</i>
Maharashtra State Board <i>Higher Secondary School Certificate (H.S.C)</i>	Mumbai, India <i>Jun. 2020 – May 2022</i>
Maharashtra State Board <i>Secondary School Certificate (S.S.C)</i>	Mumbai, India <i>Jun. 2018 – May 2020</i>

PROJECTS

EduPulse - Online Class Attentiveness Detector <i>React, Firebase, MediaPipe, Python</i> – Built an AI-powered tool to analyze student engagement in real time using face and eye tracking. – Implemented MediaPipe and TensorFlow.js for browser-based detection and analytics. – Stored session data and engagement logs on Firebase, accessible via instructor dashboards.	Jun. 2025 – Present
Grocery Website <i>HTML, CSS, JavaScript, Bootstrap, Vercel</i> – Developed a user-friendly e-commerce grocery platform with product categorization and cart functionality.	Jan. 2024 – Mar. 2024
Personal Diary App <i>React, JavaScript, Vercel</i> – Created a personal diary web app for writing, editing, and deleting entries, attracting 100+ daily users.	Mar. 2025 – Apr. 2025

ACHIEVEMENTS

- NPTEL Certified: Applied Linear Algebra for AI and ML** – Completed certification covering vector spaces, eigenvalues, SVD, and ML matrix computations.
- Completed 160-Day GeeksforGeeks Problem-Solving Challenge** – Strengthened DSA expertise across arrays, recursion, trees, and graphs.
- Completed 17-Hour JavaScript Course (Udemy)** – Enhanced proficiency in DOM manipulation, ES6, and asynchronous programming, leading to 40% project improvement.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C/C++, HTML, CSS
Frameworks & Web: React, Django, Node.js, Bootstrap, jQuery
AI/ML: TensorFlow.js, MediaPipe, Applied Linear Algebra, Firebase ML Kit
Databases: MongoDB, Firebase
Developer Tools: Git, GitHub, Vercel, Postman, Visual Studio Code, Arduino Uno
Libraries: pandas, NumPy, Matplotlib
Other Skills: Responsive Web Design, API Integration, E-Commerce Development, Arduino Programming

INTERESTS

Reading – Interested in technology, self-improvement, and science literature.
Cricket – Active player with strong teamwork and competitive spirit.
